

## TRUCK SERVICES SEARCHING ROADMAP

Truck services can be searched through two different methods.

**Scheduled truck** services are predefined and commonly used routes available in the reservation system. These services are listed by following the search steps below. Departure times and service structures may vary depending on operational requirements.

**On-request truck** services can not be found through standard search steps. For these segments, a manual search should be performed using the list below. For detailed information, please contact the truck departure station. After approval from station, the truck segment is created in the reservation system with an on-request truck number.

## SCHEDULE TRUCK SEARCHING STEPS

### STEP.1

After logging into the Turkish Cargo website, click on the **"Flight Schedule"** section located under the **"Online Services"** section.

## STEP.2

Once you have selected your departure and arrival points, you can filter the results by selecting 'Truck' as the flight type to view available truck flights.

The screenshot shows the Turkish Cargo website's Flight Schedule page. At the top, there is a navigation bar with the Turkish Cargo logo, a search bar, and a 'Go to TKG@' button. The main heading is 'Flight Schedule'. Below this, there is a search filter section with the following fields: 'Daily' (selected), 'Date Range', 'From\*' (BER - Berlin Brandenburg Airport), 'To\*' (FRA - Frankfurt Airport), 'Date\*' (01/11/2026), 'Flight Type' (Truck), 'Aircraft Type' (Select Aircraft Type), and 'Flight No' (TK 12345). There are 'Search Flight' and 'Monthly Calendar' buttons. Below the search filters, there are two promotional banners. The left banner is for 'TKG@' and describes it as 'The smartest way to manage your cargo', listing benefits like Fast Transactions, Dynamic Pricing, Comprehensive Services, 24/7 Customer Support, and Tracking and Transparency. It includes 'Login' and 'Sign Up' buttons. The right banner is for 'Not a Turkish Cargo agency?' and provides contact information: 0850 333 0 777 and cargocustomer@thy.com. At the bottom, there is a footer with the Turkish Cargo logo, copyright information (© 2011 - 2026), and social media icons for LinkedIn and an upward arrow.

## STEP.3

After completing these steps, you will be able to view detailed information regarding the listed flights.

This screenshot is identical to the one above, showing the Turkish Cargo Flight Schedule page with the same search filters and promotional banners.
