

## TRUCK SERVICES SEARCHING ROADMAP

Truck services can be searched through two different methods.

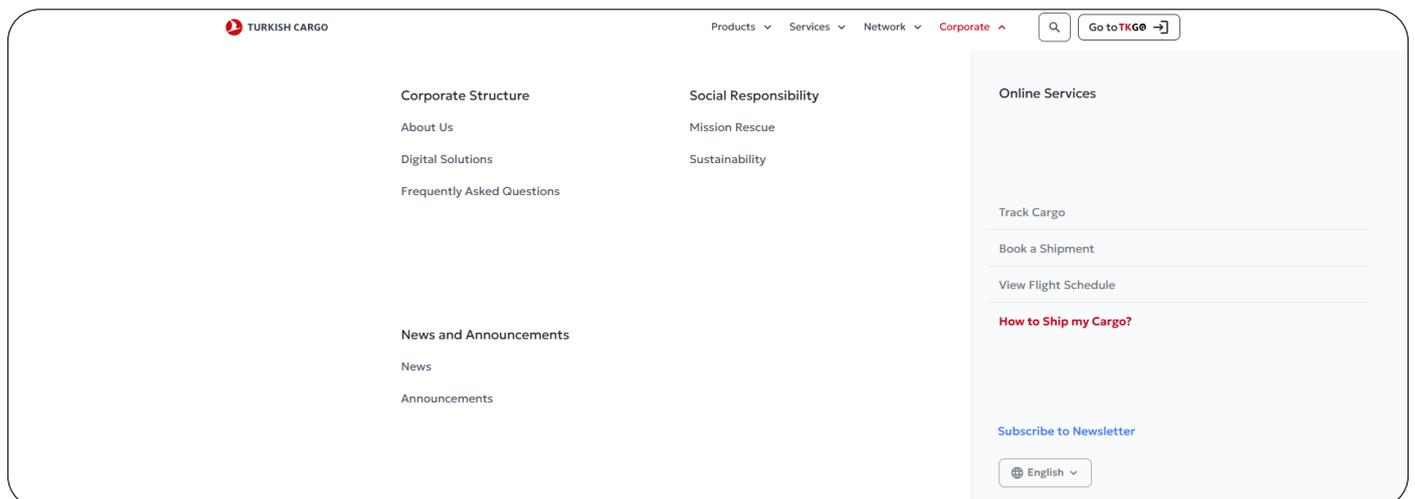

**Scheduled truck** services are predefined and commonly used routes available in the reservation system. These services are listed by following the search steps below. Departure times and service structures may vary depending on operational requirements.

**On-request truck** services can not be found through standard search steps. For these segments, a manual search should be performed using the list below. For detailed information, please contact the truck departure station. After approval from station, the truck segment is created in the reservation system with an on-request truck number.

## SCHEDULE TRUCK SEARCHING STEPS

### STEP.1

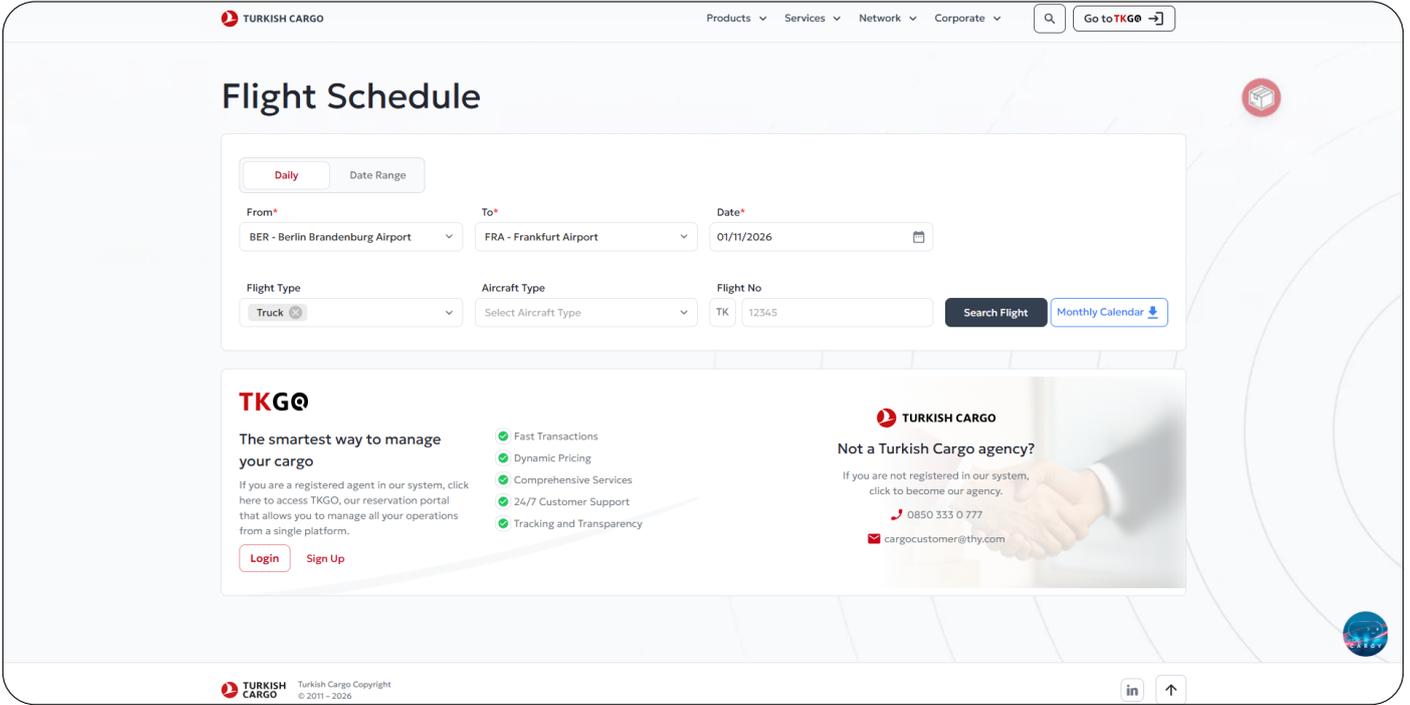

After logging into the Turkish Cargo website, click on the “Flight Schedule” section located under the “Online Services” section.

The screenshot shows the Turkish Cargo website interface. At the top, there is a navigation bar with the Turkish Cargo logo and the text 'TURKISH CARGO'. To the right of the logo, there are several menu items: 'Products', 'Services', 'Network', and 'Corporate'. A search bar is also present with the text 'Go toTKG' and a search icon. Below the navigation bar, there is a main content area with a grid of links. The links are organized into two columns. The first column contains: 'Corporate Structure', 'About Us', 'Digital Solutions', 'Frequently Asked Questions', 'News and Announcements', 'News', and 'Announcements'. The second column contains: 'Social Responsibility', 'Mission Rescue', and 'Sustainability'. On the right side of the page, there is a sidebar titled 'Online Services'. This sidebar contains a list of links: 'Track Cargo', 'Book a Shipment', 'View Flight Schedule', 'How to Ship my Cargo?', and 'Subscribe to Newsletter'. The 'View Flight Schedule' link is highlighted in red. At the bottom of the sidebar, there is a language selector button labeled 'English'.

## STEP.2

Once you have selected your departure and arrival points, you can filter the results by selecting 'Truck' as the flight type to view available truck flights.

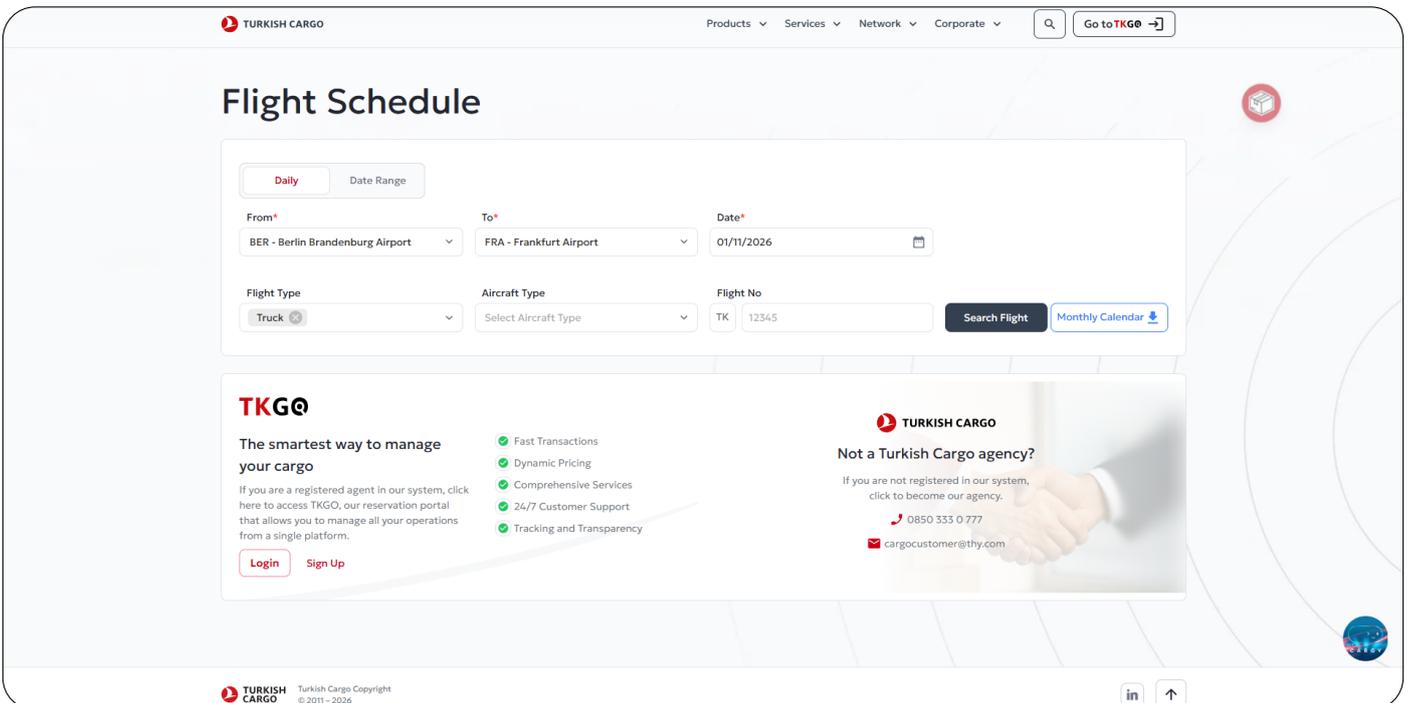

The screenshot shows the Turkish Cargo website's Flight Schedule page. The search filters are set as follows:

- Flight Type:** Truck
- From:** BER - Berlin Brandenburg Airport
- To:** FRA - Frankfurt Airport
- Date:** 01/11/2026
- Flight No:** TK 12345

Buttons for 'Search Flight' and 'Monthly Calendar' are visible. Below the search filters, there are two promotional banners for TKG@ and a 'Not a Turkish Cargo agency?' section.

## STEP.3

After completing these steps, you will be able to view detailed information regarding the listed flights.

This screenshot is identical to the one in Step 2, showing the Turkish Cargo Flight Schedule page with the same search filters: 'Truck' flight type, BER - Berlin Brandenburg Airport to FRA - Frankfurt Airport, date 01/11/2026, and flight number TK 12345.
